Add-on extra peace of mind

The Titan Beacon is a hidden, wireless backup device.

If thieves try to use signal jammers to block your main tracker, the Beacon cuts through the interference to ensure we can still find and recover your vehicle. It is the ultimate anti-jamming safety net for just **R49* extra a month.**

*24 month subscription plan

Transparent Protection

Complete peace of mind with no hidden costs. Essential safety features, including battery tampering and ignition-off movement alerts, are built directly into our upgraded tiers for reliable, out-of-the-box protection.

Affordable Asset Recovery

Take control with remote engine immobilisation to stop theft in its tracks. For ultimate protection, you can install our optional wireless, anti-jamming Beacon add-on to ensure we can locate your vehicle even under hostile signal conditions.

Cross-Border Control

Maintain complete visibility of your logistics with seamless cross-border tracking capabilities.

Scalable Intelligence

Start with affordable tracking and easily bolt on advanced telematics when your fleet operations expand.

See the Full Picture with Titan Vision

Knowing where your vehicles are is step one. Step two is seeing what happens on the road. Pair your tracking plan with our Live Lens or AI Pro dashcams to capture every incident.
