## Live Lens

Essential video recording and basic telematics in one streamlined package.

## Choose From Two Smart Camera Packages.

## Dual Lens AI Pro

Advanced driver tracking, geo-fencing, and scalable data for modern fleets.

## Contact Us

### Undeniable Accident Proof

Instant, high-definition event recording provides concrete evidence to speed up claims and protect against fraudulent insurance assignments.

### Proactive Risk Mitigation

AI actively monitors the cabin for closed eyes, yawning, and phone usage, alerting drivers to correct their behaviour before an accident occurs.

### Remote Live Streaming

Check in on your vehicle instantly via live video streaming straight from your mobile device.

### Instant Remote Retrieval

Eliminate the administrative headache of manual memory card collection; view and stream critical event clips remotely.

## Build Your Perfect Fleet Defence

Whether you need a single anti-theft unit, affordable tracking, or a fully integrated ecosystem with AI cameras and telematics, we build tailored solutions that protect your assets and your bottom line.

\*App screen for visual purposes only

## Take Control with Titan Telematics

Upgrading your security? Add our Lite or Full Telematics to any Secure plan (**from just R59 pm**) to monitor driver behaviour, set geo-fences, and get real-time alerts.
